

*Columnar Apple*

# Starcats

Ak 71-20-97

'Bolero' x 'Elstar', 1996

- mid vigorous variety; suggested rootstocks: MM106, MM111, P14, M7,

- shape and colour like 'Elstar', colouration starts early; bright red, fruit firm with a penetrometer value at harvest about 6.1
- hanging stable, long harvesting period, very good flavour - similar to 'Elstar', suitable for long time storage

- insusceptible to apple scab, mildew, cancer, apple aphid and other aphids; climatical very robust; a very good quality for ecological production
